Mediport

Run your clinic. Let WhatsApp handle the front desk.

Clinic management software with a WhatsApp patient assistant.

PRODUCT DEMO

THE PROBLEM

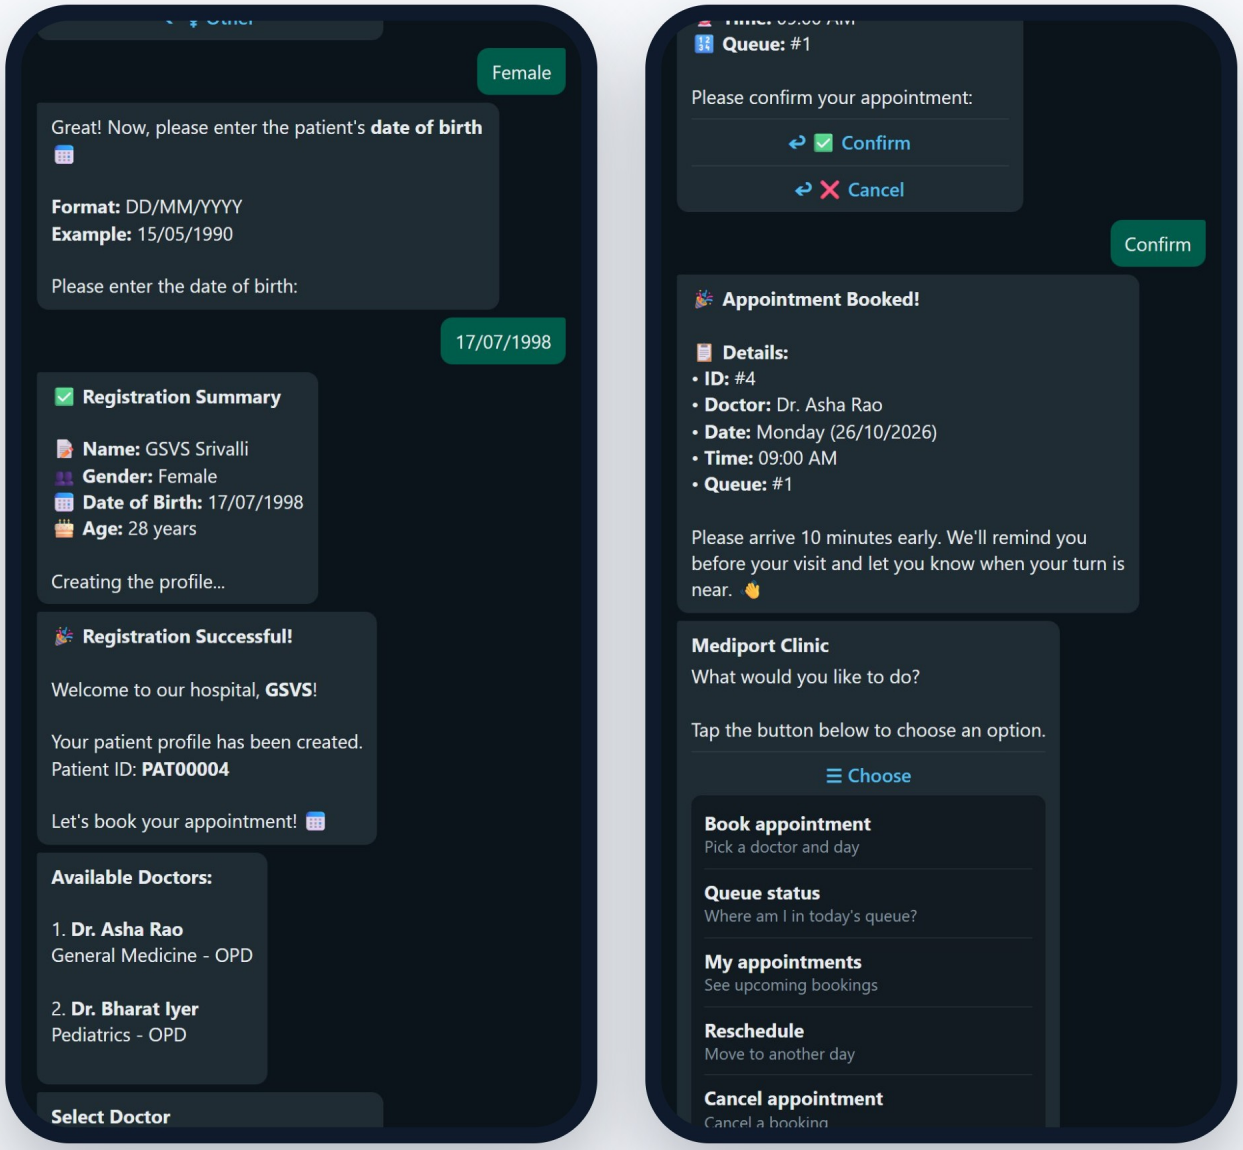

Front desks are stretched thin

- Phone calls to book
- Crowded waiting rooms
- “When is my turn?”
- Lost paper prescriptions
- Stock expiring unnoticed

PATIENTS

Patients book on WhatsApp

Name, doctor, day and confirmation, all inside one chat.

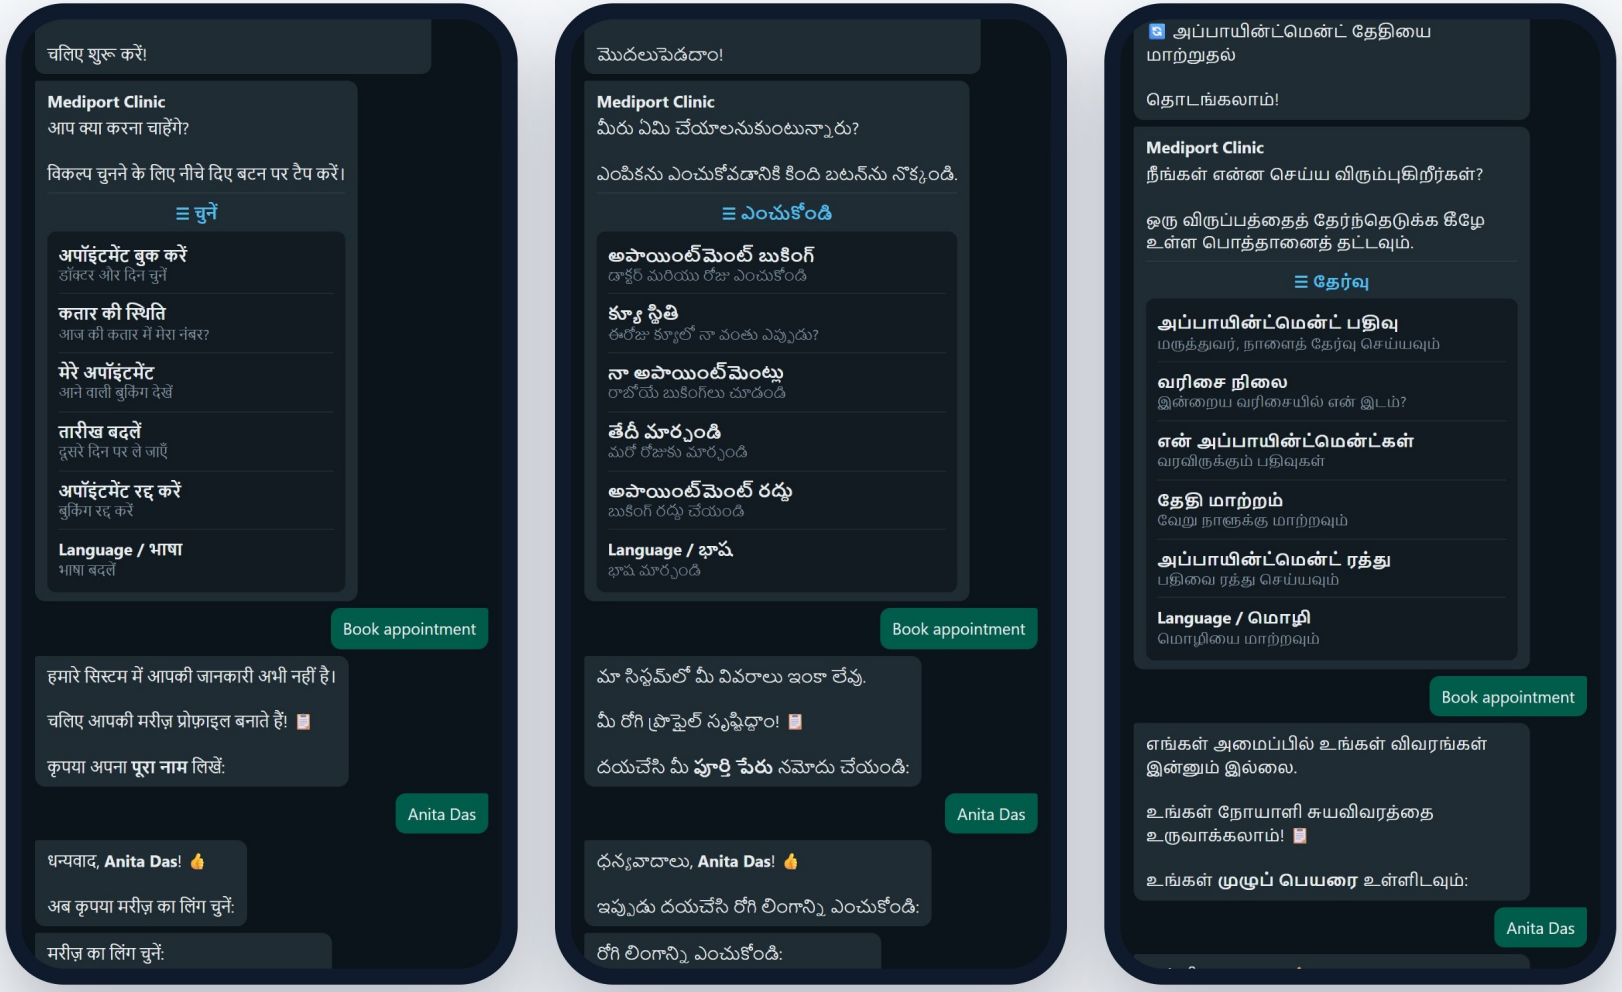

No app to install. A new patient registers and books in under a minute of chatting.

PATIENTS

Speaks their language

English हिन्दी తెలుగు தமிழ்

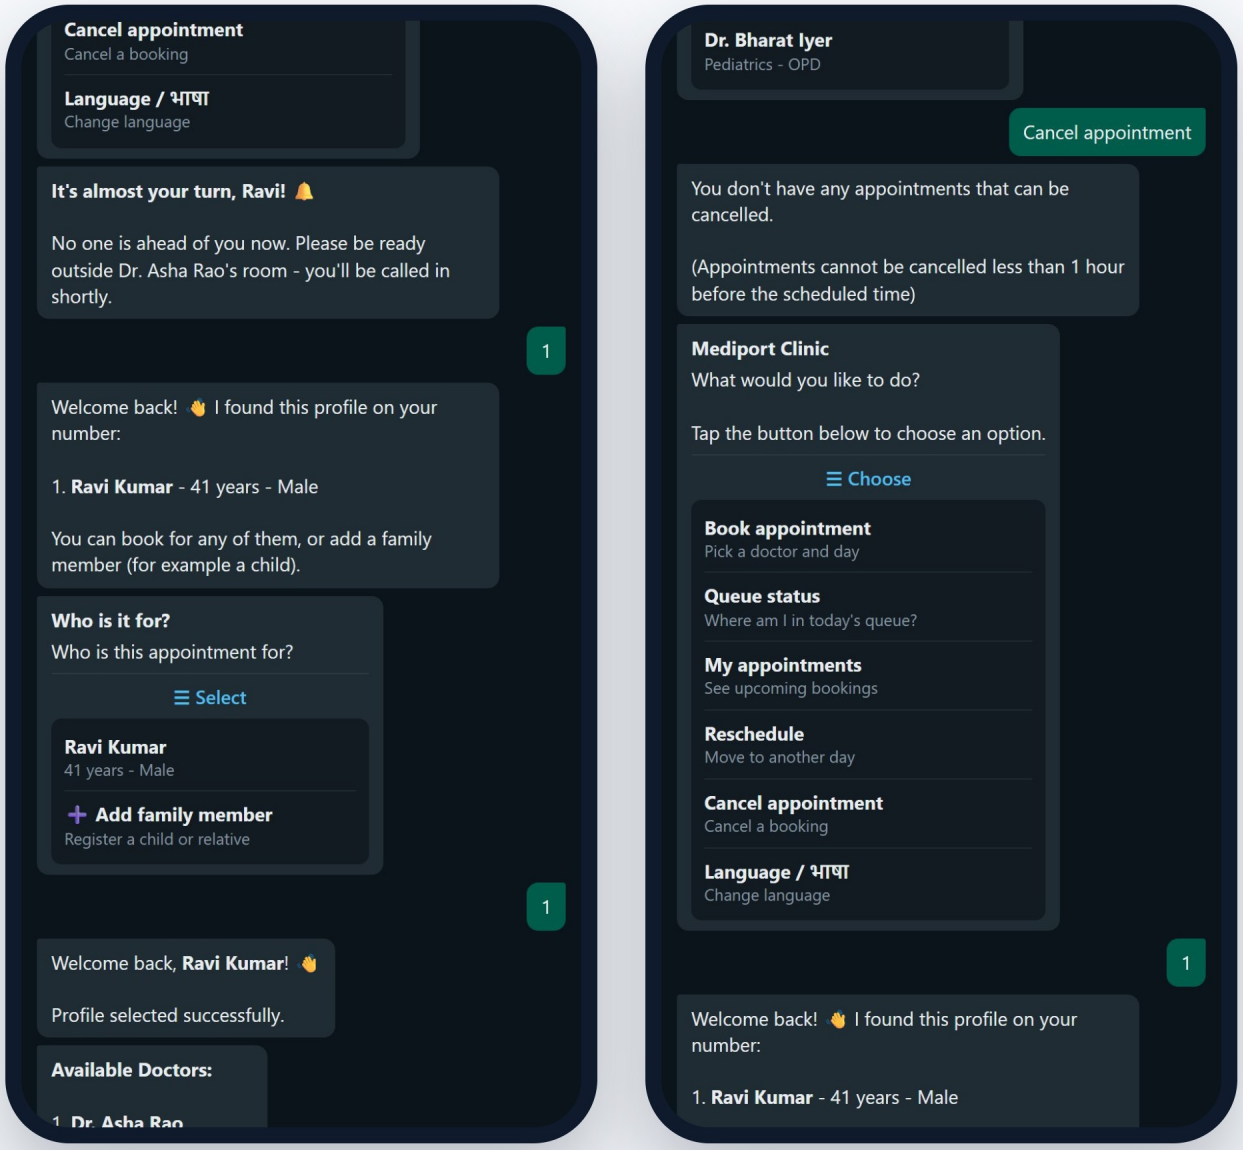

Patients choose their language right in the chat.

PATIENTS

Manage bookings in chat

Queue status, my appointments, reschedule and cancel, all from one menu.

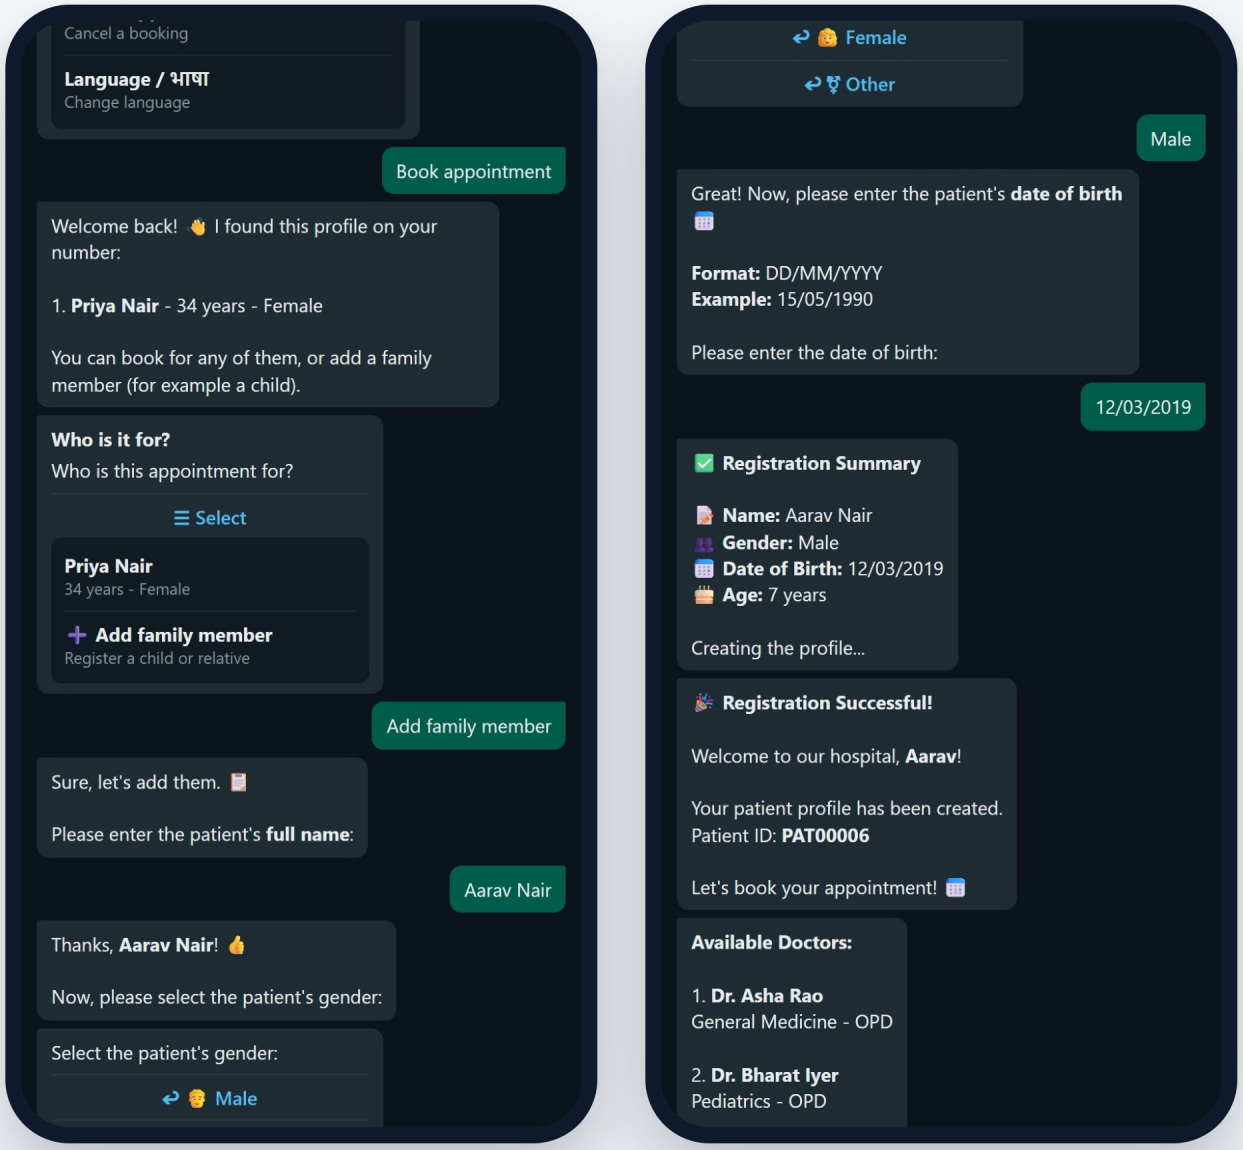

Queue updates such as “It’s almost your turn” arrive in the same chat.

PATIENTS

Families on one number

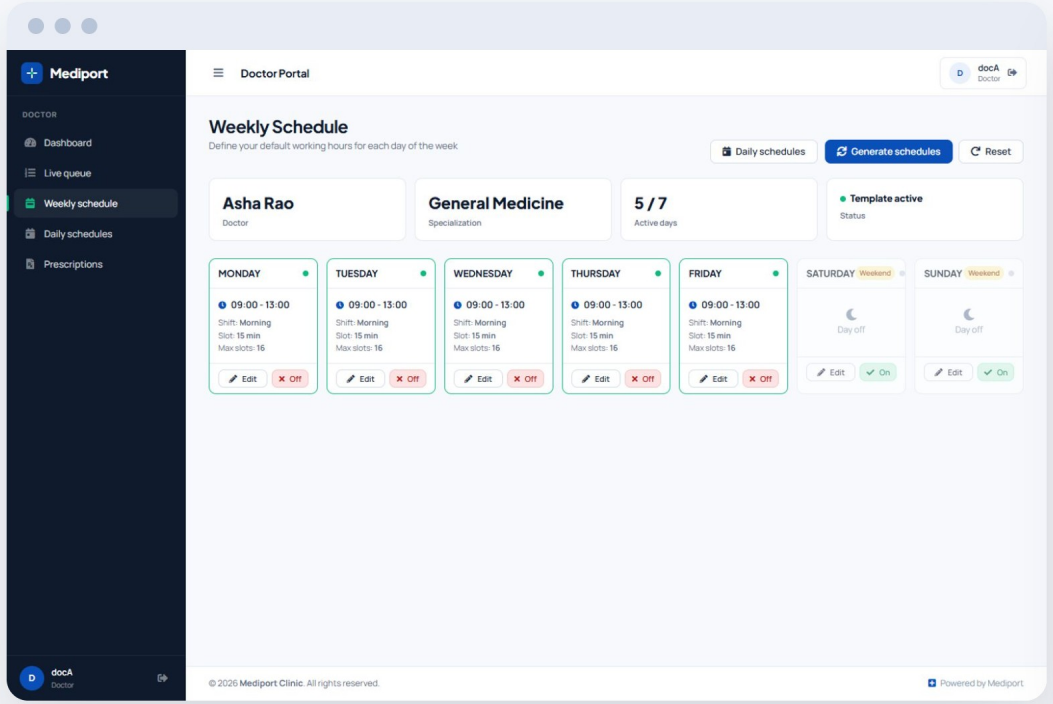

A parent books for the children from one phone.

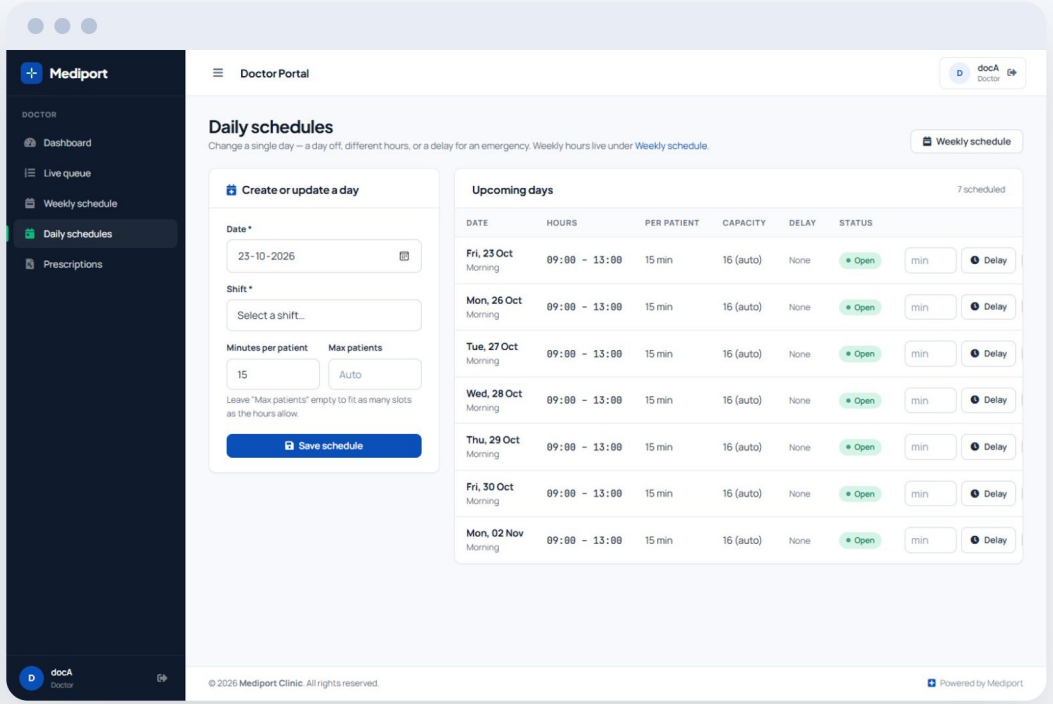

Add a family member in chat, then choose who each appointment is for.

DOCTORS

Smart scheduling

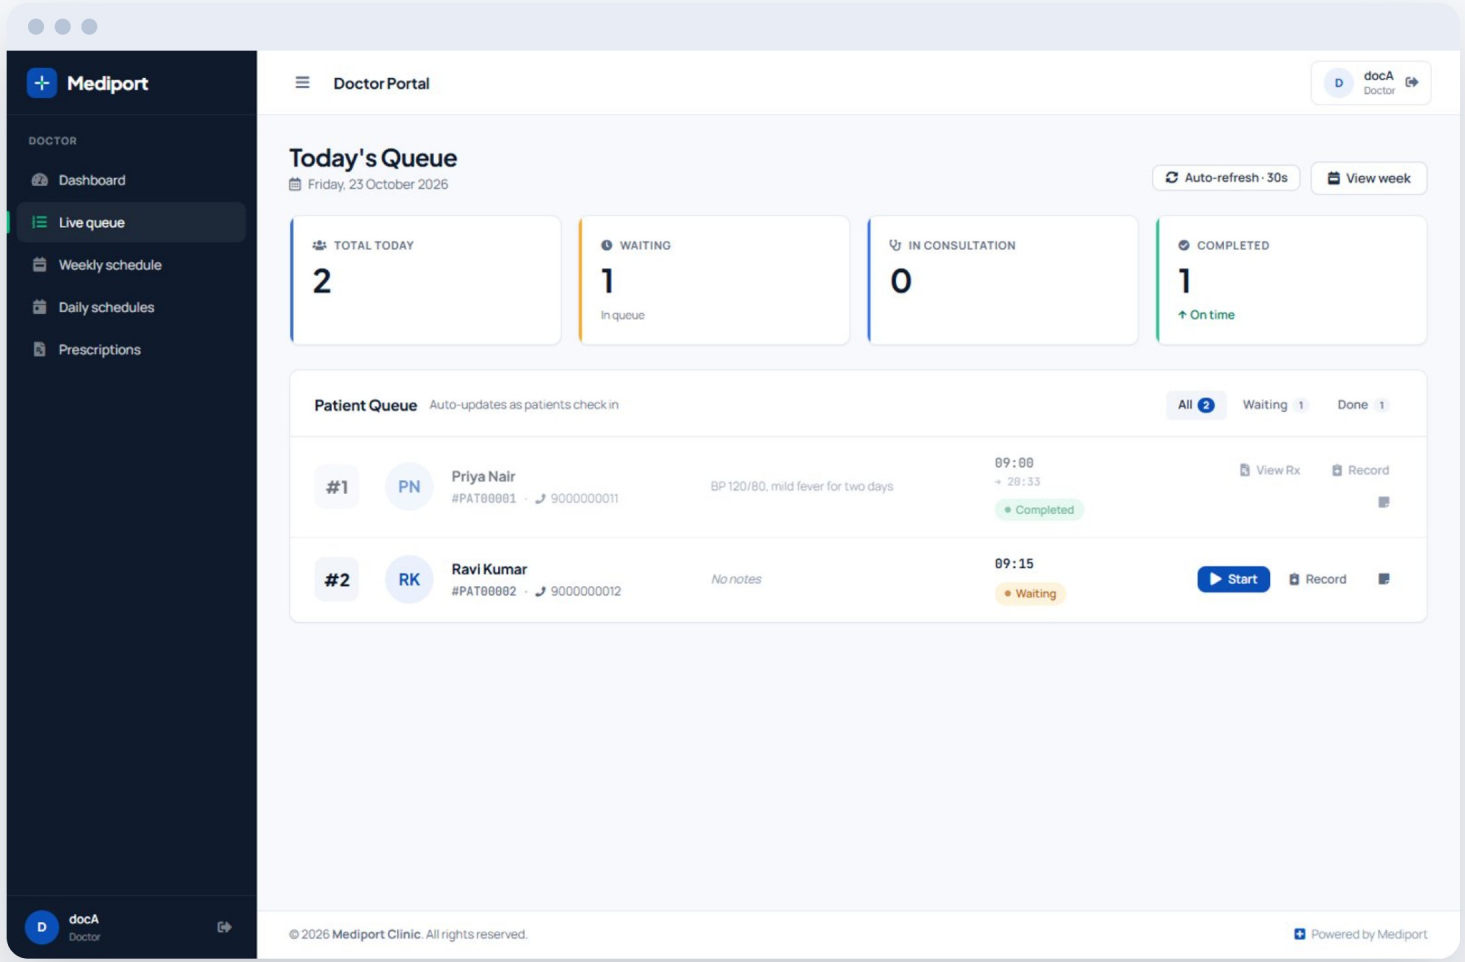

Weekly templates, automatic queue numbers, and no double-booking.

DOCTORS

Live queue for doctors

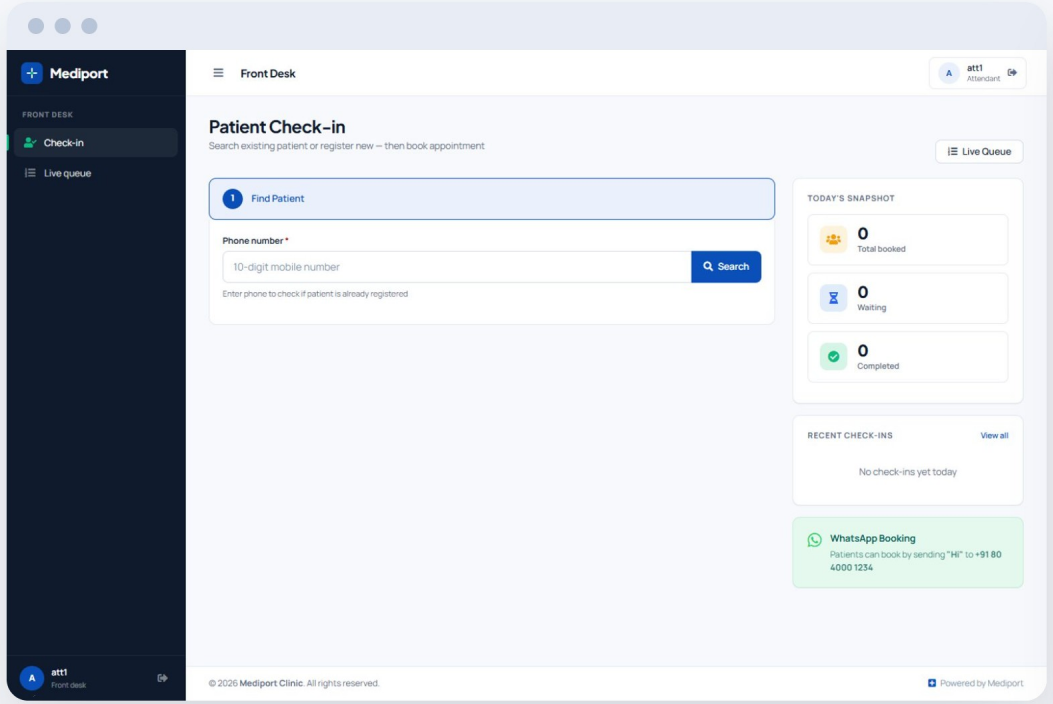

Today’s patients, in order, on one screen.

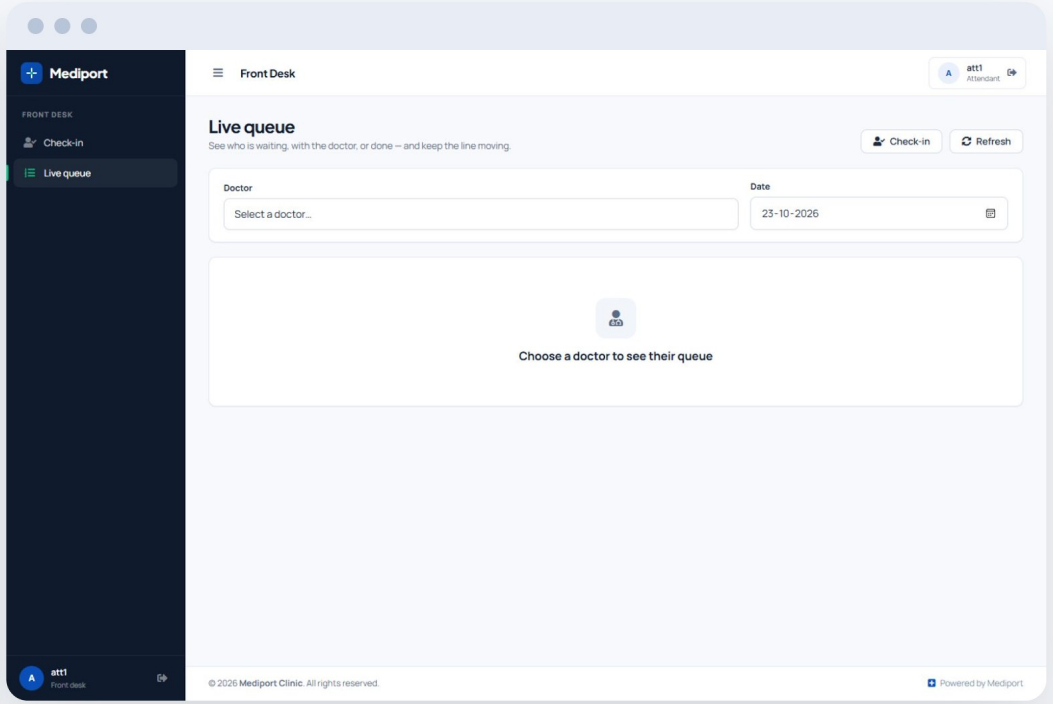

Waiting, in consultation and completed at a glance.

FRONT DESK

A calmer front desk

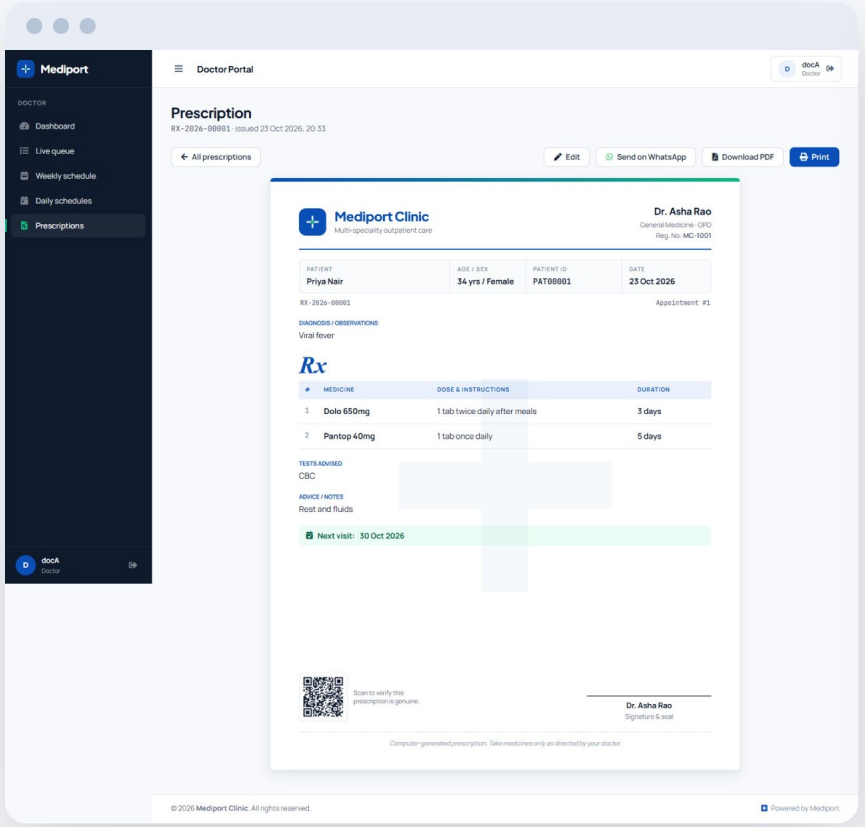

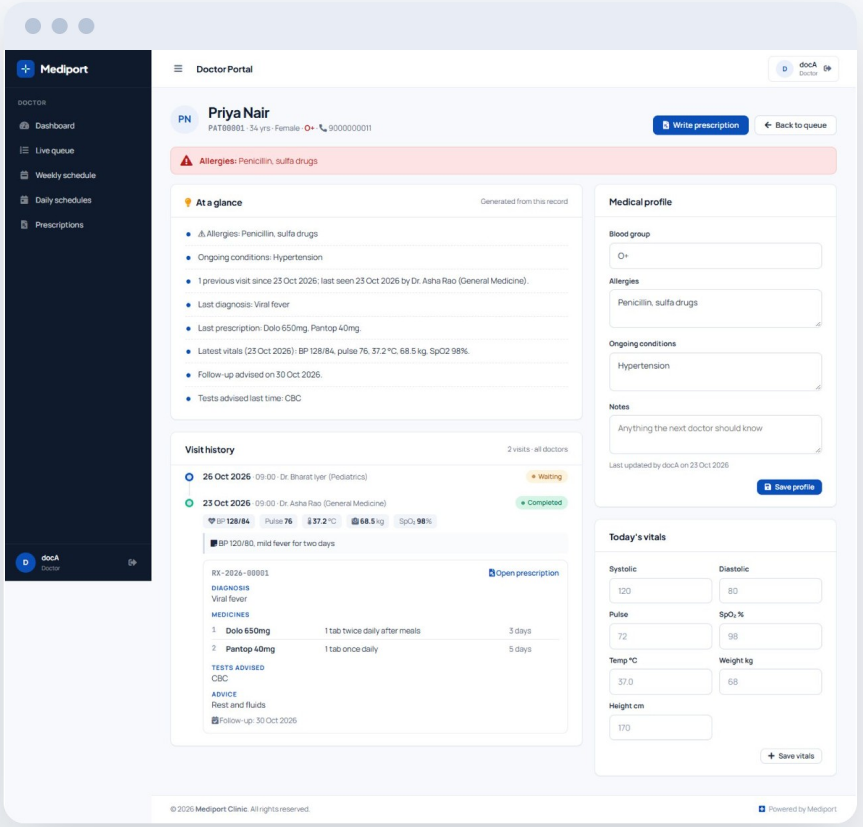

Check patients in and see the whole queue in one place.

DOCTORS

Prescriptions and medical record

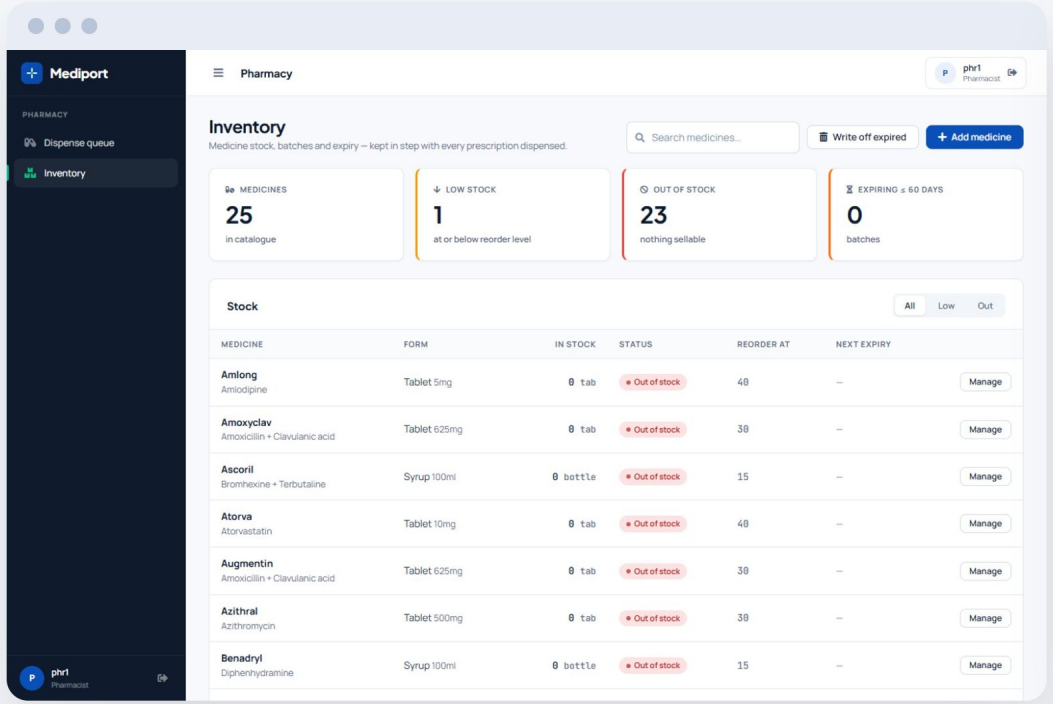

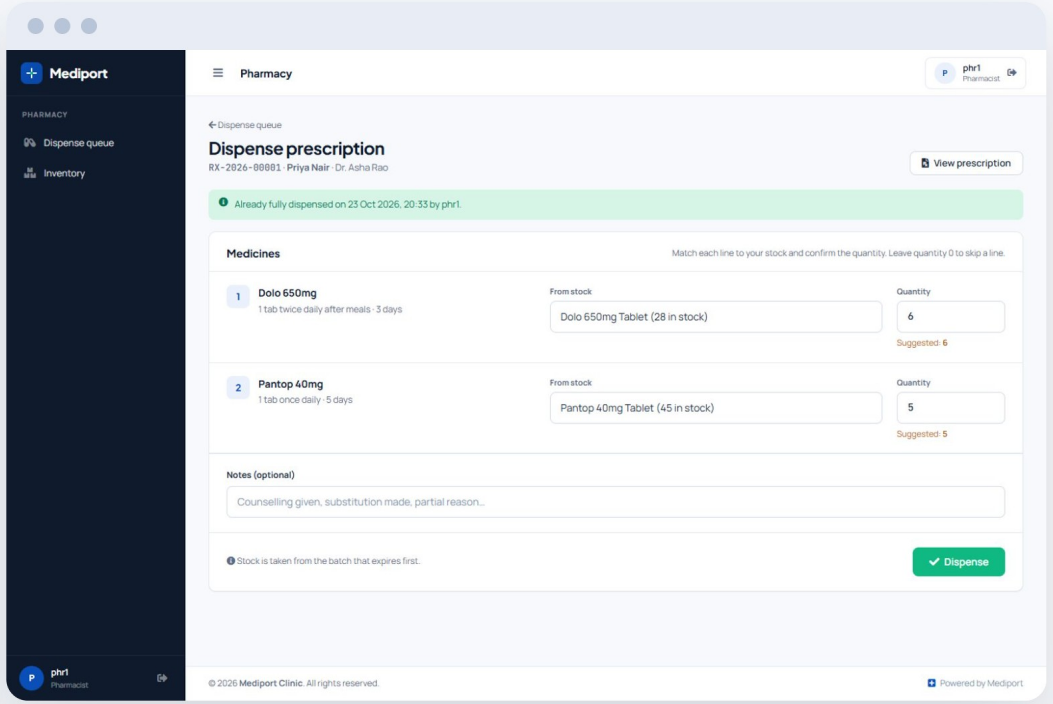

Printable A4 with a QR code, PDF, and allergies and history visible to any doctor the patient sees.

PHARMACY

Pharmacy built in

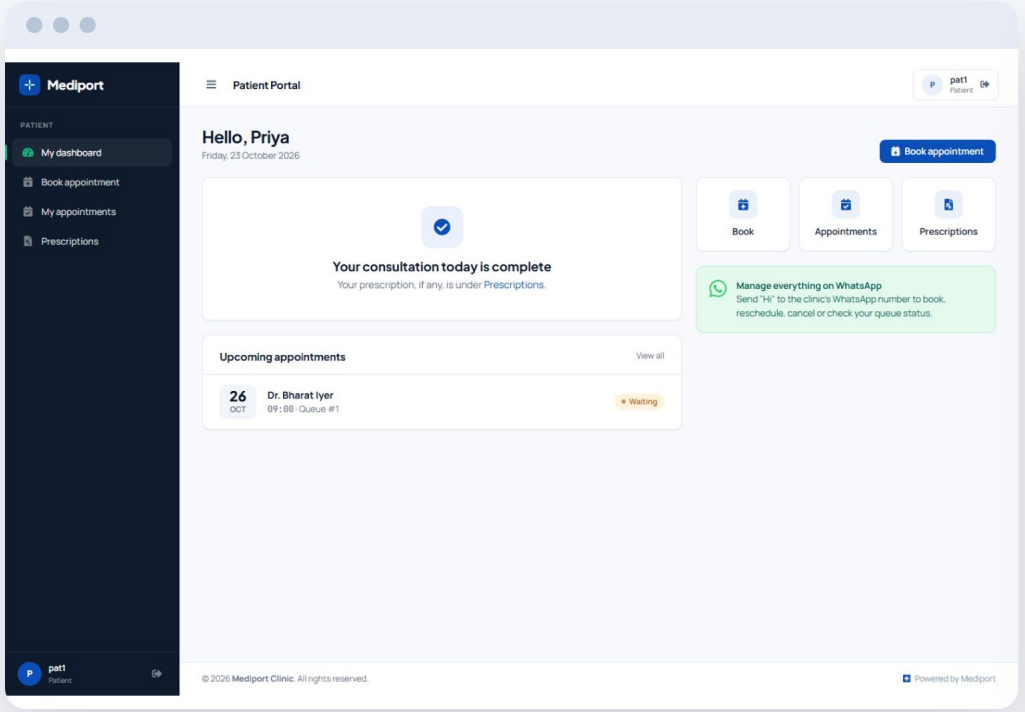

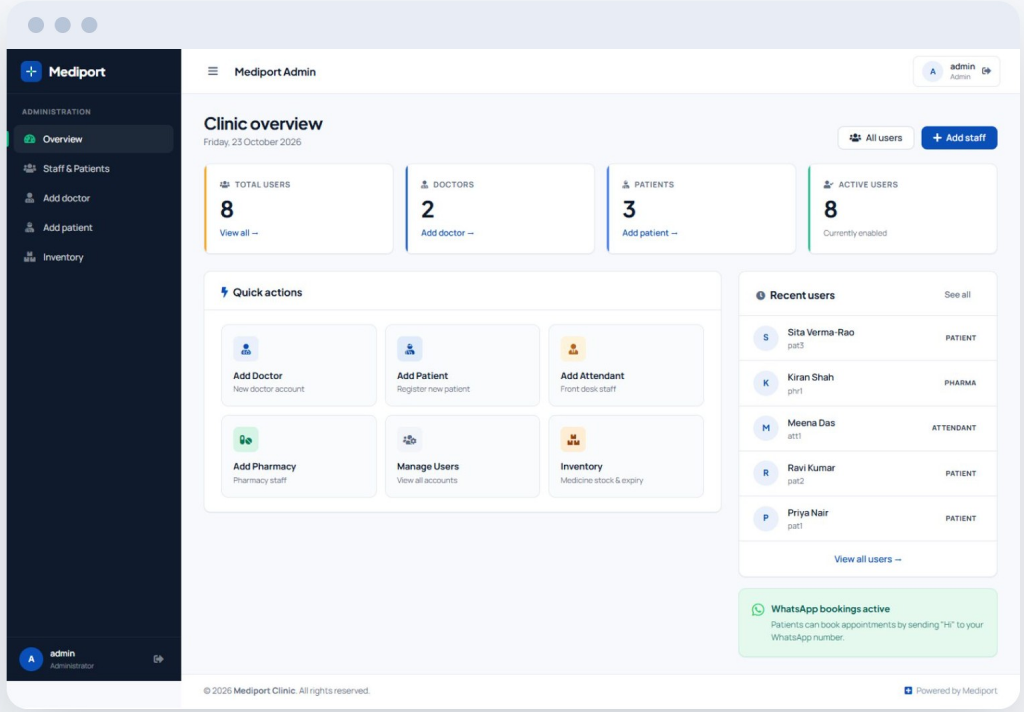

Batches and expiry, earliest-expiry-first dispensing, and low-stock alerts.
